# The Assembly

## Our Asks

We want the Scottish Government to promise to end all care charging/personal contributions in 2021 as all care is personal.

We want a commitment from the Scottish Government to help to fund four more Regional Accessible Politics groups so that we can make sure that we can engage locally as well as nationally in all eight Parliamentary regions.

We want a promise from the Scottish Government to work with The Assembly to help us address issues that we think are important, such as mental health, employment, education, housing, equal access to health care, digital inclusion, social care, etc.

We want the Scottish Government to agree to work with us to help to make the Cross Party Group for Learning Disability more accessible and help us to form a Parliament for people with learning disabilities and/or autism.

Don't forget to vote on  
Thursday, 6 May 2021!
